---

Good morning,

The River Runner vessel is currently at RM 6.5 (Willamette Cove). AECOM has confirmed communication with 14 receivers this morning, collecting tilt, battery life, memory and hits. Thus far all receivers are in "good health" and tilt angles are oriented below 9°. AR-A08 is tilted at 30°, and will mostly likely be reoriented in the near future (next month).

Thank you,

Jonni
